

IRRI clip

NEW STYLE IRRIGATION PIPE CLIP *FAST secure FIXING of DRIPLINE*

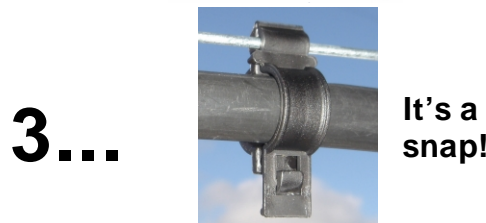

From the makers of
DiBro AMI clip
For tomatoes and all string
supported plants

The newest, fastest clip to attach
dripline and feeder pipe to vine-
yard and orchard Trellis Wire...

DiBro IRRI-Clip

As easy as...

FAST Fixing of dripline to wire!

Available in 3 universal sizes:

11-16mm OD driplines

17-24mm OD driplines

25-32mm OD driplines

Universal grip on all standard HT Galv wire
used in Irrigation systems. Fast, easy use
on new systems or as retro-fit!

POSI-GRIP HINGE - clip grips wire. Suitable
for driplines on hills at steep angles!

Note: After install a light discolouration may appear at the
apex of the hinge, this is **normal** and is only the white UV
additive showing through the black dye in the plastic.

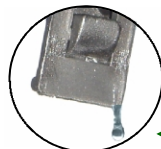

Features and Benefits:

- All made at our factory in Petone, NZ
- NZ design & manufacture
- Fastest fitting of all (>2x faster than 'twisty' ties)
- Ultra-High level of UV conditioner
- Long life—made from same material as DripLine
- Positive grip on wire
- Use on sloping runs without slipping
- Withstands high wind load
- 3 universal sizes fit all driplines—including flatpipe
- At your local Irrigation specialist

Supplied in bulk carton of 6000 and bag of 1000

**Engineered Ribbed Wire
Clamp holds IRRI-Clip to
wire—safe to use on hills
and in high winds**

**IRRI-Clip 'catches' water
and drips off lower corner—
puts water where you need it**
